**National Survey Methodology:**

This survey of 1,000 likely general election voters nationwide was conducted on May 28<sup>th</sup> through May 31<sup>st</sup>, 2017. All interviews were conducted online; survey invitations were distributed randomly within predetermined geographic units. These units were structured to correlate with actual voter turnout in a nationwide general election. This poll of 1,000 likely general election voters has an accuracy of +/- 3.1% at a 95% confidence interval. The error margin increases for cross-tabulations.
