

NATIONAL CONGRESSIONAL TERM LIMITS POLL: EXECUTIVE SUMMARY

Nation Survey Conducted October 5-6, 2021

by Scott Rasmussen

Survey Summary: The results of a recently completed national survey show that voters overwhelmingly support implementing term limits on members of Congress. Support for term limits is broad and strong across all political, geographic and demographic groups.

82% of voters agree with a Constitutional Amendment that will place term limits on members of Congress. Term limits are supported by at least two-thirds of every surveyed demographic group. Likewise, an overwhelming majority of voters across party lines favor term limits: 87% Republicans, 83% Democrats and 78% Independents.

Conclusions:

American voters overwhelmingly support placing term limits on members of Congress. The support for term limits is strong, broad and intense, and boosts support for elected officials who would vote to implement term limits on members of Congress.

Methodology:

The survey of 1,200 Registered Voters was conducted online by Scott Rasmussen on October 5-6, 2021. Field work for the survey was conducted by RMG Research, Inc. Certain quotas were applied, and the sample was lightly weighted by geography, gender, age, race, education, internet usage, and political party to reasonably reflect the nation's population of Registered Voters. Other variables were reviewed to ensure that the final sample is representative of that population. The margin of sampling error for the full sample is +/- 2.8 percentage points.
