RMG RESEARCH, Inc.

US Term Limits Survey
of 423 Likely Democratic Primary Voters
In MD3
Conducted February 19-26, 2024

Methodology

The survey of 423 Likely Primary Voters was conducted online for USTL on February 19-26, 2024. Field work for the survey was conducted by RMG Research, Inc. Certain quotas were applied, and the sample was lightly weighted by gender, age, and race. Likely voters were determined by a screening process within the survey.

The margin of sampling error for the full sample is +/- 4.8 percentage points.
